

Goresbrook CC – Club Guidelines and Policies

Changing and Showering

For adults who are playing with players under 18, the following guidelines apply:

1. Adults must not shower at the same time using the same facility as children. In the event of a young player being present, it is the responsibility of the adult to ask the team captain to remove the young player from the environment.
2. Adults should try to change at separate times to children during matches. It is the responsibility of the adults and team captain to ensure that young players can change in an adult free environment and it is the responsibility of the team captain to ensure that this happens.
3. In rare situations, such as inclement weather or general safety and security reasons, young players may have no alternative but to share changing facilities. As such, only young players whose parents have read and agreed to this point of the club policy will be considered for selection to open age fixtures.
4. Mixed gender teams must have separate changing rooms.
5. Mobile phones **MUST NOT** be used in changing rooms.
